

EQUIPHOTEL INNOVATION AWARDS

Press release - October 2022

Discover the 24 nominees for the EquipHotel 2022 Innovation Awards

EquipHotel, the leading **BtoB trade show** for hotel and restaurant professionals is returning to Paris, Porte de Versailles, from **6 to 10 November 2022**, with the central theme of conscious hospitality, or the **new cross-cutting ways of designing responsible and sustainable establishments**.

The **EquipHotel Innovation Awards** are a highlight for hospitality professionals, and offer a real platform for the winners. Through this competition, built around four categories related to the show's four themes, "**Food service**", "**Tech/Services**", "**Wellness**", "**Design**" and 2 subcategories, "Customer Experience" and "Well-Being at Work", EquipHotel showcases innovations in the Hospitality sector.

The members of the Innovation Awards jury, chaired by Olivier Bon, Co-Founder and Director of Experimental Group, shortlisted 24 projects - out of 200 - that are sensitive to the environment, human relations, well-being at work and customer satisfaction. These choices are based on the priorities of a hospitality sector undergoing major change.

From 1 to 8 November, the public can vote online. The results of the public vote account for 30% of the overall score, while the points awarded by the panel of experts represent 70%.

The announcement of the 9 winners, 1 for each sub-category, i.e. 2 per category, and a "jury's choice award", will take place on 9 November 2022 at 5:00 p.m. on the Main Stage (hall 7.3). The ceremony will be hosted by food columnist Loïc BALLETT.

THE NOMINEES ARE : FOODSERVICE

Customer experience: experience something new differently

BTTR No.1 (JNPR): non-alcoholic spirits / collaboration with an Italian distillery / BTTR no.1 contains orange, lemon, gentian, rhubarb, liquorice, cinnamon + environmentally responsible packaging / 1 bottle = 15 cocktails
